- (3) Effective Date of the Distribution of the Year-End Dividend: June 30, 2021

**Proposal 2: Amendment of a part of the Articles of Incorporation**

1) Reasons for amendment

Founded in 1897 as the Okinoyama Coal Mine, the Company later expanded operations to include machinery, cement, and chemicals businesses, and changed its name to Ube Industries, Ltd. with the amalgamation of its operating companies in 1942. The Ube machinery business has already been spun off, and plans are in place between Ube Industries and Mitsubishi Materials Corporation to integrate their cement businesses and related businesses in April 2022. Going forward, the Company will become a chemical company, and each company will aim for more autonomous group management as a separate company again.

The decision to change the trade name reflects the Company’s shift away from its past conglomerate structure and the beginning of a new corporate history. The UBE Group, consisting of UBE Corporation and its group companies, aims to help solve global environmental issues, enrich people’s lives and health, and contribute to a prosperous future world by continuing to develop its chemicals business on a global scale. Article 1 (Corporate name) in the current Articles of Incorporation will be amended in order to change the trade name from Ube Industries, Ltd. to UBE Corporation.

The effective date of the amendment of the Articles of Incorporation will be April 1, 2022 with the establishment of a supplementary provision, which will be deleted after the effective date.

2) Contents of the amendment

The details of the amendment are as follows.

**Proposal 3: Approval of Absorption-Type Company Split Agreement**

1) Reason for absorption-type company split

In 1998, Ube Industries and Mitsubishi Materials Corporation (“Mitsubishi Materials”) established Ube-Mitsubishi Cement Corporation as an equally-owned joint venture. Under the joint venture, the companies integrated their respective standalone cement sales and logistics functions, realizing a certain degree of benefit including reductions in logistics costs as well as back office expenses. While the business situations surrounding the cement business in Japan are currently undergoing significant changes, including slowing demand and increased costs due to higher energy prices, it is necessary for Ube Industries and Mitsubishi Materials to establish a new framework for their cement businesses that builds upon the existing relationship including the joint venture, in order to realize the future growth of their cement businesses. In light of these circumstances, Ube Industries and Mitsubishi Materials decided to integrate the respective cement businesses and related businesses of their corporate groups (the “Integration”) as an optimal strategic option to combine all of the advantages of the respective cement businesses and related businesses of both companies such as Ube Industries’ (1) infrastructure facilities in the Ube area, including large port facilities and coal centers; (2) nationwide ready-mixed concrete manufacturing and sales network; and (3) Ube Material Industries’ inorganic materials business; and Mitsubishi Materials’ (1) Kyushu Plant, which boasts the largest domestic production capacity; (2) Higashitani Mine, which has abundant limestone resources; and (3) highly competitive Cement and ready-mixed concrete business in the United States.

The scope of the Integration encompasses the cement and ready-mixed concrete businesses, limestone resources businesses, energy and environmental-related businesses, construction material businesses, and other related businesses (the “Relevant Businesses”) of Ube Industries and Mitsubishi Materials, both in and outside of Japan (the Relevant Businesses of Ube Industries, the “Ube Industries Relevant Businesses”; the Relevant Businesses of Mitsubishi Materials, the “Mitsubishi Materials Relevant Businesses”).

Ube Industries and Mitsubishi Materials will implement the Integration by establishing C Integration Arrangement, Ltd. (the “Successor Company”), an equally owned joint venture that will assume the Ube Industries Relevant Businesses and the Mitsubishi Materials Relevant Businesses (including shares of subsidiaries engaged in the relevant businesses) by an absorption-type split method (the company split by Ube Industries, the “Ube Industries Absorption-Type Company Split,” the company split by Mitsubishi Materials, the “Mitsubishi Materials Absorption-Type Company Split,” the Ube Industries Absorption-Type Company Split and the Mitsubishi Materials Absorption-Type Company Split, together, the “Joint Absorption-Type Company Split”). Additionally, the Successor Company will implement an absorption-type merger of Ube-Mitsubishi Cement, with the Successor Company as the absorbing company and Ube-Mitsubishi Cement as the absorbed company (the “Absorption-Type Merger”).

Based on the above, the Company agreed to conduct the Ube Industries Absorption-Type Company Split and entered into an absorption-type company split agreement with the Successor Company on May 14, 2021.

This Proposal requests approval for the absorption-type company split agreement relating to the Ube Industries Absorption-Type Company Split between the Company and the Successor Company.

- Matters concerning appropriateness of split consideration
  - (1) Matters concerning appropriateness of number of shares

At the time of the Ube Industries Absorption-Type Company Split, the Successor Company will newly issue 450 shares and entirely allocate these shares to Ube Industries.

Additionally, at the time of the Mitsubishi Materials Absorption-Type Company Split, the Successor Company will newly issue 450 shares equaling the shares allocated to Ube Industries and entirely allocate the shares to Mitsubishi Materials. As a result, the Successor Company will have issued 900 shares at the time of the Joint Absorption-Type Company Split. The ratio of shares

issued by the Successor Company to be allocated to Ube Industries and to Mitsubishi Materials at the time of the Joint Absorption-Type Company Split is 1:1 (the “Agreed Share Allocation Ratio”), and thus Ube Industries and Mitsubishi Materials will each continue to own 50% of the shares in the Successor Company.

In determining the allotment of common stock of the Successor Company to be received by Ube Industries and Mitsubishi Materials in the Joint Absorption-Type Company Split, based on confirmation and careful review of the forecasts for the respective Relevant Businesses provided by each party, Ube Industries appointed Goldman Sachs Japan Co., Ltd. (“Goldman Sachs”) as a financial advisor independent from Ube Industries and Mitsubishi Materials and requested Goldman Sachs to perform financial analyses that indicated a range of illustrative equity values for the Ube Industries Relevant Businesses and the Successor Company. Mitsubishi Materials appointed Merrill Lynch Japan Securities Co., Ltd. (currently BofA Securities Japan Co., Ltd., “BofA”) as a financial advisor independent from Mitsubishi Materials and Ube Industries and requested BofA to perform financial analyses for the allotment related to the Joint Absorption-Type Company Split.

After numerous careful negotiations and discussions between each party, comprehensively considering such confirmation and careful review of the forecasts for the respective Relevant Businesses provided by each party, the financial analyses by each financial advisor, the strategic rationale and expected synergies from the Integration, Ube Industries and Mitsubishi Materials reached agreement on the allotment of new common stock of the Successor Company. In making this decision, each of Ube Industries and Mitsubishi Materials received a financial analysis report (santei-sho) as of September 29, 2020 from its respective financial advisor. Ube Industries has confirmed that there will be no material changes in the various conditions that formed the assumptions for the Agreed Share Allocation Ratio in the Joint Absorption-Type Company Split during the period through May 31, 2021.

The scope of the insured persons under the contract includes directors, auditors, executive officers, management employees\*<sup>1</sup>, outside dispatched directors\*<sup>2</sup>, resigned directors and auditors, and their successors at the Company and its 54 subsidiary companies in Japan. ## **Proposal 7: Stock Option Compensation, etc. for Directors (excluding Directors who are Audit and Supervisory Committee Members and Outside Directors).**

The Company allots share acquisition rights as stock compensation-type stock options for Directors (excluding Directors who are Audit and Supervisory Committee members) by resolution of the Board of Directors under the terms and within the limit of up to 130 million yen annually, as approved by the 113th Ordinary General Meeting of Shareholders held on June 27, 2019.

Under the Act for Partial Revision of the Companies Act (Act No. 70 of 2019) and the Ministerial Ordinance for Partial Revision of the Ordinance for Enforcement of the Companies Act, etc. (Ordinance of the Ministry of Justice No. 52 of 2020), which came into effect on March 1, 2021, it is required to obtain the approval of the General Meeting of Shareholders for the specific terms related to the grant of share acquisition rights as compensation for Directors. Accordingly, the Company requests approval for the terms of the share acquisition rights described below in order to continue the current stock option compensation.

The Company's Policy on Determining Remuneration, etc. of Directors (excluding Directors who are Audit and Supervisory Committee members) is as shown on pages 60 through 64 of the attached Business Report. It is considered that the content of this policy will continue to be appropriate as the policy for determining remuneration if this Proposal is approved. Therefore, there are no plans to revise the policy.

The stock options are intended to increase the incentive of Directors (excluding Directors who are Audit and Supervisory Committee members and Outside Directors, hereinafter referred to as the "Grant Eligible Directors") to achieve medium- to long-term targets and enhance shareholder value. The terms are determined in accordance with the policy and based on comprehensive consideration of various matters including the level of contribution of the Grant Eligible Directors, and the Company believes these terms are reasonable.

With regard to share acquisition rights as stock options, instead of the payment of the paid-in amount determined based on a fair price at the time of allotment, it is intended that the payment will be made by offsetting the compensation receivables of the Grant Eligible Directors based on the remuneration, etc. related to share acquisition rights as stock options under this Proposal.

At present, four Directors are eligible for the stock options. If Proposal No. 4 "Election of six Directors (excluding Directors who are Audit and Supervisory Committee Members)" is approved as proposed, there will still be four eligible Directors.

The class of shares that are the object of share acquisition rights shall be the Company's common shares, and the number of shares that are the object of each share acquisition right shall be 100 (hereinafter referred to as the "Number of Shares Granted.") However, if, on or after the date of the resolution on this Proposal (hereinafter referred to as the "Resolution Date"), the Company implements a stock split of its common shares (includes an allotment of the Company's common shares without contribution, the same applies to a stock split below) or a reverse stock split, it will adjust the Number of Shares Granted using the following formula. In addition to the above, if, on or after the Resolution Date, the Company implements a merger or corporate spin off, or if it is otherwise necessary to adjust the Number of Shares Granted, the Company may adjust the Number of Shares Granted appropriately to the extent that is reasonable. If, on or after the Resolution Date, the Company changes the number of shares in a share unit (excluding when accompanying a stock split or a reverse stock split, the same applies to changes to the number of shares in a share unit below), the Company may

(2) Total number of share acquisition rights

A total of 240 share acquisition rights to be allotted to Directors (excluding Directors who are Audit and Supervisory Board members and Outside Directors) shall be the upper limit on the number of share acquisition rights to be allotted on a date within one year from the date of the Ordinary General Meeting of Shareholders for each fiscal year. However, if the Number of Shares Granted is adjusted accompanying a change in the number of the Company's common shares in a share unit, the Company may reasonably adjust the total number of share acquisition rights according to the ratio of the adjustment.

(3) Paid-in amount for share acquisition rights

The paid-in amount per share acquisition right shall be the amount determined by the Board of Directors based on the fair value of the share acquisition rights calculated using a fair calculation method such as the Black-Scholes model at the time of the allotment of the share acquisition rights.

(4) Value of property to be contributed on the exercise of share acquisition rights

The value of property to be contributed on the exercise of each share acquisition right shall be the amount to be paid in per share to be delivered by the exercise of such share acquisition right, which shall be one (1) yen, multiplied by the Number of Shares Granted.

(5) Period when share acquisition rights can be exercised

The period when share acquisition rights can be exercised is determined by the Board of Directors within 25 years of the day following the date on which the share acquisition rights are allotted.

(6) Restriction on acquisition of share acquisition rights through transfer

The acquisition of share acquisition rights through transfer will require approval by a resolution of the Board of Directors.

(7) Conditions for exercise of share acquisition rights

A person who received an allotment of share acquisition rights may exercise the share acquisition rights on and after the day following the date on which he or she lost his or her position as both a Director (excluding Directors who are Audit and Supervisory Committee members) and an Executive Officer of the Company. Other conditions for the exercise of share acquisition rights will be determined by the Board of Directors.

(8) Matters concerning acquisition of share acquisition rights

If the Company's General Meeting of Shareholders approves a proposal in (1), (2), (3), (4), or (5) below (or if a resolution is made at the Company's Board of Directors in cases where a resolution of the General Meeting of Shareholders is not required), the Company may acquire share acquisition rights without compensation on a date determined separately by the Company's Board of Directors.

- (1) A proposal for approval of a merger agreement in which the Company is the absorbed company;

- (5) A proposal for approval of an amendment to the Articles of Incorporation to establish a provision to the effect that shares to be issued upon exercise of share acquisition rights shall require the approval of the Company for acquisition of such shares through transfer,

or that the Company shall acquire all such class of shares by resolution at the Company's General Meeting of Shareholders.
