Notice Regarding Acquisition of LANXESS Urethane Systems Business

UBE Corporation (“UBE”) announced that its Board of Directors resolved at a meeting held on October 3, 2024, to enter into a Sale and Purchase Agreement (the “Agreement”) for the acquisition of all shares of each of the entities owned by LANXESS Deutschland GmbH (head office: Germany; hereinafter “LANXESS”) that engage in the Urethane Systems Business (the “Target Business”) to make such entities its subsidiaries (the “Acquisition”). The Agreement has been executed as of the same date and the Acquisition is expected to take place after obtaining regulatory approvals and completing other procedures required under relevant laws and regulations.

1. Reason for Share Acquisition

UBE group aims to achieve growth driven by specialty chemicals and contributions to the global environment. We are strategically investing in our specialty business while restructuring and optimizing our foundational sectors, such as the ammonia and caprolactam chains, to transform our corporate structure for the future.

For the C1 chemical chain, the market in the United States is our top priority, and currently, we are in the process of constructing a cutting-edge plant for DMC (dimethyl carbonate) and EMC (ethyl methyl carbonate) in Louisiana. Additionally, we are catalyzing our expansion into our downstream capabilities, including PCD (polycarbonate diol) and PUD (polyurethane dispersion). The Acquisition emphasizes our ambition to integrate high-performance polyurethane resin operations, enhancing our capabilities in these critical domains.

The Target Business is one of the leader in producing high-performance polyurethane resins for thermosetting urethane elastomers. With over 70 years of experience, it prides itself on unrivaled expertise, advanced application development, and a robust customer base. Leveraging its global manufacturing and development centers, primarily in North America, it delivers custom solutions tailored to meet specific client needs. Notably, it excels in high-end applications demanding superior performance, particularly within the semiconductor industry.

By acquiring this formidable foundation—marked by technical expertise in polyurethane resins, a global talent pool, extensive manufacturing capabilities, and strong partnerships and distribution networks with customers—we aim to amplify our PCD and PUD businesses and solidify our presence in the high-performance polyurethane resin market.

2. Overview of Target Business

As a result of the Acquisition, UBE will acquire the shares in nine direct subsidiaries (plus two indirectly held subsidiaries) comprising the Target Business.

(1) Target Business	Business related to the manufacture and sale of polyurethane products (i.e., urethane systems products such as prepolymers) held by LANXESS
